Primary responsibilities include, but are not limited to:

- Groundwater modeling, groundwater quality assessments, and contaminant transport for projects related to contaminated sites.
- Environmental permit management, regulatory analysis and compliance;
- Build and maintain strong, collaborative relationships with clients and NTS staff.
- Support the NTS safety program through safe work practices, policy adherence and hazard reporting, and wearing appropriate PPE.
- Other duties as assigned or necessary.

Qualifications:

- Bachelor's or Master's degree in Environmental Engineering with strengths in hydrogeology and hydro geochemistry
- Familiarity with permitting, environmental compliance, and water resource investigation
- Knowledge of Federal and State regulatory guidelines
- Must be highly detail-oriented
- Strong desire for continued learning and professional growth
- Willingness to work outdoors in all types of conditions
- Valid driver's license

Compensation & Schedule:

Position Type: Full-Time

Compensation: Starting at \$110,000 per year, based on experience and education. Comprehensive benefits package including health insurance, retirement plan, paid time off, and professional development.

Work Schedule: Monday – Friday
